Feed Your Crops

GROWING crops must have food—plant food—which they can get only from the soil. Naturally, a well-fed crop does better than one that is underfed. The only way to feed the crop is to feed the soil, and the easiest, best paying way to feed the soil is to spread stable manure properly.

Farm produce is worth so much now, and so much is needed, that no farmer can afford to waste the natural fertilizer accumulated on his farm. Spread it on your fields right after harvest. Spread it quickly, easily, thoroughly, evenly, and cheaply with a

Low 20th Century Manure Spreader

This is the spreader that gives the manure a double beating, breaks it up into small pieces and scatters it beyond the wheel tracks of the machine in an even coating, light or heavy, over the entire surface of the soil.

The box is low and narrow. The spreader can be driven into the barn to be loaded. It turns short and is easy to handle around buildings and in the barnyard. There are three sizes—small, medium, and large—all light draft machines. Feed your crops this year with a Low 20th Century. Raise as much as you can from every acre. The increase will pay big this year. Come in and place your order as soon as you can so as to get an early start.

If a Dog Was a Human Being It Would Take Goldine

Did you ever see a dog that was really very sick? When they get real sick, they usually die. You never see them just dragging around like so many human beings do.

What is the reason? It is because dogs and other animals follow the animal instinct—which is NATURE'S WAY—and go to the fields, where they eat grass and roots and herbs which have medicinal value. These things keep them well.

A human usually does not follow NATURE'S WAY, but fills himself with harmful drugs that only give him temporary relief.

If a dog or any animal was a human being, it would take Goldine, because in Goldine is combined the roots and herbs that the animal gets when it goes out into the field.

Goldine is even better than what the

animal gets—it contains a wider variety of roots and herbs and reaches all troubles. Don't hesitate—follow NATURE'S WAY and begin on a bottle of Goldine to-day.

Goldine is sold in Barre by Cummings & Lewis and all leading dealers throughout this section, including the towns of East Barre, Barre, West Barre, Granville, Williams town, Washington, W. Topham and Brookfield—Adv.
